

# Twilight of the Season

I know that with all the snow and brutal cold that much of Canada has been experiencing recently that most people are ready for winter to be over.

But not me! I know that this is not a popular opinion. ;)

I love the way the natural world is quiet, resting. I love the light, and the way the monochrome palette is suddenly interrupted by wild blasts of colour from sunsets and sunrises. Northern lights, snow crystals, stars that seem to sparkle brighter in the cold and bright white snowscapes against clear blue sky...

In much of Canada we were recently treated to a beautiful lunar eclipse. It brought to mind the inspiration for the Twilight Series.

Years ago, while driving to the One Of A Kind show in Toronto, I arrived at the New Brunswick border just as a lunar eclipse was starting. Rather than stopping for the night I decided to drive straight through, watching its progress in real time. It was magical!

# Artist Statement

The reward is in the act of observing. Stone colours, textures, the shape of leaves, the ebb and flow of the sea, the changing seasons - all of these things continue to inspire my work. A gesture of thanks and appreciation.

At first it was a technical challenge - to really learn to see the natural world and to develop techniques to capture a sense of it in metal. But as time has passed I am now realizing another purpose: Connection. People connecting to place, places connecting to each other and our shared connection to the world around us.

One of my students said that to me almost 20 years ago. I am still thinking about it.

"The moon casts 3 shadows you know."

I spent years travelling and living across Canada and in Canada's Arctic, giving workshops, establishing jewellery studios, teaching and encouraging others to pursue a career in the arts.

In 2000 I moved back to Nova Scotia and began work on Seal Rock Studio. My family and I currently live on Nova Scotia's scenic South Shore. I continue to work as a professional artist, exploring the theme of the Canadian and Arctic landscapes – sharing my experiences both North and South.
